Information Technology Specialist IV

\$3,950 - \$4,624 monthly salary, commensurate w/ training and experience

This position is responsible for electronic data processing systems analysis, systems design, systems development, systems implementation, and systems maintenance for all computer platforms including microcomputers, minicomputers, and mainframe computers within the Department of Health. Scope of responsibility includes major automated systems or major organizational entities.

This position performs as project manager for major application systems development efforts. The position oversees major functional areas with mission critical application systems. The position provides supervision and direction in information technology activities of sufficient scope and complexity, including the oversight of several lower level analysts.

This position provides consultation and technical expertise in a highly specialized, complex area of information technology and perform other related duties as required.

Minimum Qualification Requirements

EDUCATION: A bachelor's degree from an accredited four- year college or university.

EXPERIENCE: Two and one-half years of progressively responsible professional work experience in information technology which involved systems analysis, design, programming, security and access management, database design and management, consulting, and/or installing and maintaining computer software applications, hardware, telecommunications, web or network infrastructure equipment. The work must have demonstrated knowledge and understanding of information technology principles, methods, techniques and practices; computer hardware, software and peripheral equipment; and personal computer, server, mini and/or mainframe operating systems.

Who May Apply

LEGAL AUTHORIZATION TO WORK REQUIREMENT: The State of Hawaii requires that all persons seeking employment with the government of the State shall be citizens, nationals, or permanent resident aliens of the United States, or eligible under federal law for unrestricted employment in the United States.

How to Apply

Visit the Department of Human Resources Development website at
